

Making Advocacy Stronger

The experts in each region are the people that live there. They know what is working well, what's not working and the issues that face advocacy in the region.

We have been to all the regions to see what is happening in your area.

What we will be working on in 2011.

Advocacy Sparks

We are going to have a way for groups to apply for a small pot of money in their region that they can use to make advocacy stronger.

Working with your local council for volunteers

We will talk to the National Council for Voluntary Organisations to see how they can make their information and services more accessible for people with learning disability services.

Back to your Roots

Back to your roots is a challenge for local self advocacy organisations to get back to the campaigning side of self advocacy.
